Project → Personal Study Planner

Overview

Personal Study Planner is a Python-based command-line application designed to help students manage their academic tasks efficiently. It allows users to add, view, update, and track study-related tasks with deadlines and priorities.

Problem Statement

Students often struggle to organize assignments, revision schedules, and deadlines, leading to missed tasks and increased stress. This project aims to provide a simple solution for managing academic work effectively.

Objective

To build a menu-driven Python program that helps students:

- Organize study tasks
- Track deadlines
- Manage priorities
- Monitor task completion

Features

- Add new tasks
- View all tasks
- Mark task as completed
- Delete task
- Search tasks by subject
- Show overdue tasks
- Save tasks using JSON file
- Exit

Description of Working

Each task contains:
- Task Name
- Subject
- Deadline
- Priority
- Status

The user inputs these details while adding a task. The system stores them in a JSON file. The user can later view, update, or delete tasks.

Challenges

- Handling incorrect user input
- Managing file reading and writing
- Validating date format
- Structuring code properly

Technologies Used

- Python 3
- JSON (file handling)
- VS Code / PyCharm
- GitHub

Learning Outcomes

- Real-world problem solving using Python
- File handling using JSON
- Writing modular code
- Understanding GitHub workflow
- Writing proper documentation

----------OUTPUT----------

```
C:\Users\admin\AppData\Local\Programs\Python\Pyt

========== Personal Study Planner ==========
1. Add Task
2. View All Tasks
3. Mark Task as Completed
4. Delete Task
5. Search Tasks by Subject
6. Show Overdue Tasks
7. Exit

Enter your choice (1-7):
```

```
Enter your choice (1-7): 1

--- Add New Task ---
Enter task name: Python Assignment
Enter subject name: Python
Enter deadline (YYYY-MM-DD): 2026-03-21
Enter priority (High/Medium/Low): High
✅ Task added successfully.
```

```
Enter your choice (1-7): 2

--- All Tasks ---

Task 1 [⏳]
Task Name : pythom
Subject   : mats
Deadline  : 2026-03-31
Priority  : High
Status    : Pending
------------------------------

Task 2 [⏳]
Task Name : python 123
Subject   : python
Deadline  : 2026-02-21
Priority  : Medium
Status    : Pending
------------------------------

Task 3 [⏳]
Task Name : Python Assignment
Subject   : Python
Deadline  : 2026-03-21
Priority  : High
Status    : Pending
------------------------------
```

```
------------------------------

Task 3 [⏳]
Task Name : Python Assignment
Subject   : Python
Deadline  : 2026-03-21
Priority  : High
Status    : Pending
------------------------------

Enter task number to mark as completed: 1
✅ Task marked as completed.
```

```
Task 3 [⏳]
Task Name : Python Assignment
Subject   : Python
Deadline  : 2026-03-21
Priority  : High
Status    : Pending
------------------------------

Enter task number to delete: 1
🗑️ Task 'pythom' deleted successfully.
```
